### **DETAILED ACTION**

Receipt is acknowledged of the request for continued examination and declaration filed 01/17/2008.

The declaration under 37 CFR 1.132 filed 01/17/2008 is sufficient to overcome the rejection of claims 1-16 and 20 based upon 35 USC 103(a).

The following is a new rejection of the claims:

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-16 and 20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 5 refers to a "silicate phase corresponding to the SiO<sub>2</sub> content" in claim 1. However no SiO<sub>2</sub> is found in either claim 1 or 2. The specification is unclear as to this

silicate phase and does not appear to adequately describe its content in the invention.

Clarification is requested.

Berger et al is cited for its disclosure of a bone replacement composition.
